Sagar Datta

Location: Perth, WA • **Nationality**: Australian • **Email**: s@gar.jp.net

LinkedIn: linkedin.com/in/sagar-datta98 • **GitHub**: github.com/sagar-datta • **Portfolio**: sagar-datta.github.io

Professional Summary

Frontend engineer specialising in React and TypeScript with proven experience building high-performance web applications. Experienced in component architecture, state management, and performance optimisation. Delivers clean, type-safe code with modern UX patterns and seamless API integrations.

Education

Bachelor of Information Technology with Distinction | RMIT University | 2019 - 2024

- **GPA**: 3.5 | **Location**: Melbourne, Australia
- **Key Courses**: Full Stack Development • Web Programming • React.js • User-Centred Design • Cloud Security

Bachelor of Informatics (Exchange) | Technische Universität München | 2020

- **Location**: Munich, Germany | **Focus**: International academic experience in Computer Science

Skills

Frontend: React • Next.js • TypeScript • Redux • React Query • Tailwind CSS • Vite • Component Design
Backend: Express.js • Node.js • PostgreSQL • Supabase • RESTful APIs • Authentication
UI/UX: Responsive Design • Accessibility • Performance Optimisation • Framer Motion

Featured Projects

Clarifi | Comprehensive Personal Finance Management | February 2025 | clarifi-finance.vercel.app/dashboard

- **Tech Stack**: Next.js • TypeScript • Express.js • PostgreSQL • Redux • React Query • Tailwind CSS
- **Key Features**:
  - Architected full-stack finance application with Next.js frontend and Express.js backend
  - Implemented sophisticated state management using Redux Toolkit and React Query
  - Developed secure authentication with Clerk integration and JWT verification
  - Delivered exceptional UX with responsive design and real-time data updates

Gastronaut AI | AI-Powered Recipe Generator | November 2024 | sagar-datta.github.io/gastronaut-ai

- **Tech Stack**: React • TypeScript • Vite • Tailwind CSS • Shadcn/ui • Google Gemini Pro API
- **Key Features**:
  - Architected production-ready React application with strict TypeScript for scalability
  - Engineered robust AI integration leveraging Gemini Pro API with error handling
  - Delivered enterprise-grade accessibility with ARIA compliance and keyboard navigation
  - Maximised performance through code splitting, memoisation, and GPU acceleration

Professional Experience

Frontend Engineer | Shunya | Feb 2023 - Nov 2024

Developed React TypeScript dashboards with data visualisation • Connected to internal APIs for real-time analytics • Mobile-first responsive layouts • Reusable component library architecture • Modern performance optimisation

Frontend Developer Intern | Fyto Inc. | Jul 2022 - Nov 2022

- Engineered React-based data visualisation dashboard with Chart.js for real-time wildfire monitoring
- Optimised dashboard performance through efficient state management, reducing load time by 40%
- Led cross-functional collaboration with backend team to implement robust API endpoints

Professional Competencies

Engineering: System Architecture • Technical Documentation • Code Review • Performance Optimisation
Leadership & Delivery: Cross-functional Team Leadership • Stakeholder Communication • Agile Project Management • Problem Solving

Certifications & Awards

Foundations of UX Design - Google (2024) • RMIT Global Leadership Program (2020-2023) • First Place in Applied IT - Aquinas College (2015)

Additional Experience

Sports Leadership: Tennis team competitions • Championship achievements • Team mentoring
Technical Pursuits: Photography and digital image processing • Technical composition • Visual design
Global Perspective: International study and travel • Cross-cultural collaboration • Remote team adaptability
